7. LENGTH OF OBSERVATION 10 mins		8. NUMBER OF OBJECTS one		9. COURSE Circling	
10. BRIEF SUMMARY OF SIGHTING 23) a rnd silver white obj was seen c circling w/verticle movements in the SW. 24) a red, orange, & white obj, oval in shape, was seen circling in the WSW area.				11. COMMENTS The maneuvers rptd rule out a balloon. It is possible the obj could be an a/c circling for a landing; however, the obj disappeared in the same spot as it was first sighted. It could also be a searchlight shining on a cloud, The amount of cloud cover was omitted however. There is no size given. Cannot properly evaluate without the size & cloud cover.

The sighting has all the  
characteristics of a searchlight  
beam skimming off on broken  
clouds at different altitudes.

However, the cloud cover is not  
given, therefore cannot conclude.

1. Object was circling.
2. disappeared into the west.
3. the wind was from SW.

The above rules out a balloon.

However, it is possible an acft  
from one of the several airports

circling for a landing.

(NOTE The elevation). Aero chart  
#404 indicates 3 major airports  
west of the source location.
